

# Phase II (Small) MS4 Annual Report Form

TPDES General Permit Number TXR040000

## A. General Information

Authorization Number: TXR040368

Reporting Year (year will be either 1, 2, 3, 4, or 5): 3

Annual Reporting Year Option Selected by MS4:

Calendar Year: 2022

Permit Year: 2023

Fiscal Year: 2022-2023 Last day of fiscal year: (09/30/2022)

Reporting period beginning date: (month/date/year) 01/24/2022

Reporting period end date: (month/date/year) 01/23/2023

MS4 Operator Level: Phase II Name of MS4: City of Texarkana

Contact Name: Amanda Freeland Telephone Number: 903-798-3948

Mailing Address: 220 Texas Blvd, Texarkana, Texas 75501

E-mail Address: amanda.freeland@txkusa.org

A copy of the annual report was submitted to the TCEQ Region: YES  NO

Region the annual report was submitted to: TCEQ Region 5

## B. Status of Compliance with the MS4 GP and SWMP

1. Provide information on the status of complying with permit conditions:  
(TXR040000 Part IV.B.2)

	<b>Yes</b>	<b>No</b>	<b>Explain</b>
Permittee is currently in compliance with the SWMP as submitted to and approved by the TCEQ.	<b>X</b>		Yes, the City collects all Stormwater required documentation in accordance with the designated SW Permit being issued, prior to the SW Permit being released. If documents are missing a permit is not assigned.
Permittee is currently in compliance with recordkeeping and reporting requirements.	<b>X</b>		All Permits as well as all needed documents; SWPPP, ECP, NOI, etc. have been recorded and kept on the computer. As well as being retained in paper form by year and alphabetized.
Permittee meets the eligibility requirements of the permit (e.g., TMDL requirements, Edwards Aquifer limitations, compliance history, etc.).	<b>X</b>		Yes, all Permits have been logged and are attached.
Permittee conducted an annual review of its SWMP in conjunction with preparation of the annual report	<b>X</b>		Yes, all documents are retained throughout the year for the annual report. Documentation is reviewed prior to completing annual report.

2. Provide a general assessment of the appropriateness of the selected BMPs. You may use the table below to meet this requirement (**see Example 1 in instructions**):

<b>MCM(s)</b>	<b>BMP</b>	<b>BMP is appropriate for reducing the discharge of pollutants in stormwater (Answer Yes or No and explain)</b>
Yearly Facility Inspections	Yearly listed City Buildings, Facilities, and Parks.	We are still working on getting a 5-year plan for all facility inspections. Due, to our cyberattack in December 2020 multiple documents have been lost. 7 facilities were inspected for the 2022 year.
Pollution Prevention & Good Housekeeping for Municipal Operations	Parks and Public Works Departments, along with the Water Department (TWU) have continuing education on detecting stormwater issues.	Yes, each employee of the listed Departments is educated quarterly at meetings on what they are needing to look for in the field. This is for detected outfalls as well as discharges. This could be; looking for grass clippings in Roadway, unauthorized car washing, and illegal dumping.
Illicit Discharge Detection and Elimination	Routine Visual Inspections and by Outfall Mapping.	Yes, Visual Inspection are preformed routinely by our trained staff. By which has decreased illicit discharge
Construction Site Control and Post-Construction Site Control	Inspecting Construction sites during all stages of progress, to ensure all sites are following both State and Local rules and/ or Ordinances.	Yes, by Inspecting periodically has helped reduce any runoffs or discharge into our storm drains that flow to our creeks.

3. Describe progress towards achieving the goal of reducing the discharge of pollutants to the MEP. If no progress was made or the BMP did not result in a reduction in pollutants, provide an explanation. Use the table below to meet this requirement (**see Example 2 in instructions**):

<b>MCM</b>	<b>BMP</b>	<b>Information Used</b>	<b>Quantity</b>	<b>Units</b>	<b>Does the BMP Demonstrate a Direct Reduction in Pollutants? (Answer Yes or No and explain)</b>
1	Public Education	Utility Bill Message(1-month April 2022 Cycle-Long)  Website-Stormwater Management Information	Over 25,000	Message On Water Bill  The City's website has a page for Stormwater Management	No, it does not directly reduce pollutants. But educating our community over time will reduce the pollutants overtime.  Yes, due to all projects are aware of what is needed in order prior to any issues, such as: any soil disturbance. The City's website is continuously update with Stormwater Information
2	Dry Weather Screening	Outfalls	5	Visual Inspections	Yes, this directly impacts the reduction in pollutants to our creeks.
3	Construction Site Inspection	Construction Sites	43	Inspections	Yes, by Inspection the process at each site it reduces any discharge from escaping through the proper use of BMPs.

4	Construction Plan Review	Plans	43	Reviewing (construction of any new sites)	Yes, this ensures that the proper BMPs are being utilized to prevent any discharge.
5	Public Education	Community Cleanups and/or event (3 events)	250	Bookmarks and Pamphlets	No, it does not directly reduce pollutants. But educating our community over time will reduce the pollutants overtime.

4. Provide the measurable goals for each of the MCMs, and an evaluation of the success of the implementation of the measurable goals (**see Example 3 in instructions**):

<b>MCM(s)</b>	<b>Measurable Goal(s)</b>	<b>Explain progress toward goal or how goal was achieved. If goal was not accomplished, please explain.</b>
1	Provide utility bill inserts to each utility customer at least once each year	Met Goal-We had our local Water Utility Department run a message on all City Residents water bill for 1 months.
2	Conduct one public meeting or city-wide cleanup day each year	Exceeded Goal-We had the 1 <sup>st</sup> Citywide cleanups in the Spring of 2022 and a 2 <sup>nd</sup> in the Fall of 2022. Both were a great success even during our staffing shortage. We have created a 2 <sup>nd</sup> Litter and Debris position for daily clean-up.
3	Map 25% of outfalls and 50% of receiving waters during Year 1 (same as milestone)	Met Goal-Our Public Works employees have continuously made routine Inspections and cleaned up needed areas. With 145 "Cleaning" workorders this year (2022).  (Even with a large shortage in staff)

4	Perform site inspections on 25% of all active construction sites	Exceed Goal-Each Construction Site are Inspected periodically throughout the full construction process. We have created a "Construction Inspector" position to help with inspections for all new and on going projects. This will help us get any issues resolved faster.
5	Respond to 100% of construction complaints received	Meet Goal-Every complaint is Inspected and handled immediately. A follow up to ensure complainant has complied with needed corrections. If issue has not been resolved further steps are taken to ensure the corrections are made.
6	Review all site plans submitted for new development projects	Meet Goal-Every Project is Inspected prior to any Permit or construction beginning on all projects.
7	Sweep 50% of roads each year	Exceeded Goal-Our City is divided into 8 Areas with a schedule for alternating through out the City Limits. The City currently has 2 sweepers available if needed for multiple workorders.
8	Send two employees each year to a stormwater training workshop	Did not Meet Goal-Staffing shortage. We did however participate in 2 webinar's that were made available to us for training.
9	Inspect 5 industrial facilities	Did not Meet Goal-Due to Staffing shortage. 2 facilities were inspected.

### **C. Stormwater Data Summary**

Provide a summary of all information used, including any lab results (if sampling was conducted) to assess the success of the SWMP at reducing the discharge of pollutants to the MEP. For example, did the MS4 conduct visual inspections, clean the inlets, look for illicit discharge, clean streets, look for flow during dry weather, etc.?

### **D. Impaired Waterbodies**

1. Identify whether an impaired water within the permitted area was added to the latest EPA-approved 303(d) list or the Texas Integrated Report of Surface Water Quality for CWA Sections 305(b) and 303(d). List any newly identified impaired waters below by including the name of the water body and the cause of impairment.
  - In the 2016 Draft Texas Integrated Report adopted October of 2018, Wagner Creek which is located within the City Limits of Texarkana, Texas was added under 5C for Bacteria. The City has been working with Halff to create an updated version for our Stormwater Management Program. (Recreational Use)
2. If applicable, explain below any activities taken to address the discharge to impaired waterbodies, including any sampling results and a summary of the small MS4's BMPs used to address the pollutant of concern.
  - The City of Texarkana does not have further data available on the impact of Wagner Creek. The City has continued to monitor the issues and to prevent any further issues. The Stormwater Management Plan (without any specific BPM use) is being used to ensure no further issues arise.
3. Describe the implementation of targeted controls if the small MS4 discharges to an impaired water body with an approved TMDL.
  - No targeted controls have been used at this time.
4. Report the benchmark identified by the MS4 and assessment activities:

<b>Benchmark Parameter</b> <i>(Ex: Total Suspended Solids)</i>	<b>Benchmark Value</b>	<b>Description of additional sampling or other assessment activities</b>	<b>Year(s) conducted</b>
<b>NOT APPLICABLE</b>			

5. Provide an analysis of how the selected BMPs will be effective in contributing to achieving the benchmark:

<b>Benchmark Parameter</b>	<b>Selected BMP</b>	<b>Contribution to achieving Benchmark</b>
<i>NOT APPLICABLE</i>		

6. If applicable, report on focused BMPs to address impairment for bacteria:

<b>Description of bacteria-focused BMP</b>	<b>Comments/Discussion</b>
<i>NOT APPLICABLE</i>	

7. Assess the progress to determine BMP's effectiveness in achieving the benchmark.

For example, the MS4 may use the following benchmark indicators:

- number of sources identified or eliminated;
- number of illegal dumpings;
- increase in illegal dumping reported;
- number of educational opportunities conducted;
- reductions in sanitary sewer flows (SSOs); /or
- increase in illegal discharge detection through dry screening.

Benchmark Indicator	Description/Comments
<i>NOT APPLICABLE</i>	

### E. Stormwater Activities

Describe activities planned for the next reporting year:

MCM(s)	BMP	Stormwater Activity	Description/Comments
Construction Site Runoff Controls	Every ECP is reviewed prior to any project being. As well as periodic Inspections are conducted to ensure all BMPs are properly working.	Continue to monitor all project sites to ensure 100% quality control is being done.	All construction projects within the City Limits of Texarkana are required to provide and use all Erosion Controls Plans for each project, upon City approval. All constructions sites will be monitored throughout the duration of each project to ensure no runoffs. If any issues are found during inspections, a Corrective Letters is issued to Contractor and/ or property owner.

Public Education/ Outreach	Water Bills have a Stormwater message that are sent out once a year. As well as all complaints are addressed with informational literature to prevent future issues.	Informational literature is helpful in the process of educated our citizens of the pollutants that could protentional be discharged.  Citizens participating in our Adopt-A-Spot Program.	The City has continued to utilize all means available to help prevent any discharge of pollutants into our storm drains and our creeks. Education is a key tool in doing so. The City also takes the opportunity to educate citizens at Citywide clean up events.  We had 3 new Adopt-A-Spot issued this year. With citizens participating in helping clean the community this helps with our manpower keeping the City clean.
Illicit Discharge Detection & Elimination	Marking of Storm Drains and conducting yearly Inspections of potential issues with our water systems.	Continuing to enforce all City of Texarkana Ordinances pertaining to Stomwater Management. Along with educating when an issue occurs.	Educating employees and citizens will help prevent any illicit discharge. Inspects are essential for protection in eliminating future discharge and getting issues resolved.

## F. SWMP Modifications

1. The SWMP and MCM implementation procedures are reviewed each year.

Yes  No

2. Changes have been made or are proposed to the SWMP since the NOI or the last annual report, including changes in response to TCEQ's review.

Yes  No

If "Yes," report on changes made to measurable goals and BMPs:

MCM(s)	Measurable Goal(s) or BMP(s)	Implemented or Proposed Changes (Submit NOC as needed)
<b>NOT APPLICABLE</b>		

**Note:** If changes include additions or substitutions of BMPs, include a written analysis explaining why the original BMP is ineffective or not feasible, and why the replacement BMP is expected to achieve the goals of the original BMP.

3. Explain additional changes or proposed changes not previously mentioned (i.e. dates, contacts, procedures, annexation of land, etc.).

### G. Additional BMPs for TMDLs and I-Plans

Provide a description and schedule for implementation of additional BMPs that may be necessary, based on monitoring results, to ensure compliance with applicable TMDLs and implementation plans.

<b>BMP</b>	<b>Description</b>	<b>Implementation Schedule (start date, etc.)</b>	<b>Status/Completion Date (completed, in progress, not started)</b>
<i><b>NOT APPLICABLE</b></i>			

### H. Additional Information

1. Is the permittee relying on another entity to satisfy any permit obligations?

Yes  No

If "Yes," provide the name(s) of other entities and an explanation of their responsibilities (add more spaces or pages if needed).

Name and Explanation:

Name and Explanation:

Name and Explanation:

Name and Explanation:

2.a. Is the permittee part of a group sharing a SWMP with other entities?

Yes  No

2.b. If "yes," is this a system-wide annual report including information for all permittees?

Yes  No

If "Yes," list all associated authorization numbers, permittee names, and SWMP responsibilities of each member (add additional spaces or pages if needed):

Authorization Number: _____	Permittee: _____
Authorization Number: _____	Permittee: _____
Authorization Number: _____	Permittee: _____
Authorization Number: _____	Permittee: _____

### I. Construction Activities

1. The number of construction activities that occurred in the jurisdictional area of the MS4 (Large and Small Site Notices submitted by construction site operators):

**12-Large and 5-Small Site Notices**

2a. Does the permittee utilize the optional seventh MCM related to construction?

Yes  No

2b. If "yes," then provide the following information for this permit year:

<b>The number of municipal construction activities authorized under this general permit</b>	
---	--

The total number of acres disturbed for municipal construction projects	27.779 (Large)
	13.60 (Small)

**Note:** Though the seventh MCM is optional, implementation must be requested on the NOI or on a NOC and approved by the TCEQ.

## H. Certification

If this is this a system-wide annual report including information for all permittees, each permittee shall sign and certify the annual report in accordance with 30 TAC §305.128 (relating to Signatories to Reports).

*I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.*

**APPLICATION FOR DEMOLITION PERMIT**

I, Francis Excavating LLC (Chad Patterson) the undersigned, hereby certify and state I am the owner of the property described thereon and all the information is correct

*Property Address:* 18 Dogwood Lake Dr Texarkana, TX 75503

*Legal Description:* Lot Block Sub-Division

*Structure Description:*  Single-Family  Duplex  Accessory Bldg  Commercial

**Name(s) and address of Company or Persons responsible for demolition**  
Francis Excavating LLC  
PO Box 1009, Nash, TX 75569

**CERTIFICATE OF DEMOLITION CONDITIONS**

I am requesting a demolition permit for the above mentioned structure. I understand that I will be given ninety (90) days to complete the demolition work and completely clear the property of debris. I will be responsible to call the Inspection Office for an inspection when the demolition process has been completed. I also understand a bond may be required for demolition of building or structure permit as follows:

- **Single-family residence or duplex** is \$2,500.00
- **Commercial and industrial buildings, and multiple-family dwellings** will be established by the Chief Building Official based on the actual estimate to demolish the structure and clear the building
- **Owner Certified to Demolish Structure** - bond not required under the exception for property owners specified in Section 5-4 (4) of the Code of Ordinances of the City of Texarkana Texas. Demolition work will be done by me, the owner, or by person(s) regularly employed by me. I certify the structure is a single-family, duplex or accessory building (not commercial). I understand that if any of the above statements are not true, or if I do not adhere to any of the stated conditions, the City may issue a stop work order and a bond will be required before work continues.

**I HAVE READ THE FOREGOING, AND DO HEREBY CERTIFY I HAVE MET AND WILL ADHERE TO THE CONDITIONS CONTAINED THEREIN. I UNDERSTAND IF DEMOLITION IS NOT COMPLETED AND PROPERLY CLEARED OF DEBRIS WITHIN THE ALLOTTED TIME FRAME, THE CITY WILL TAKE ACTION TO HAVE THE STRUCTURE DECLARED SUBSTANDARD AND THE CITY WILL DEMOLISH THE STRUCTURE AT OWNER'S EXPENSE.**

**Project/ Site Address: 110 Crumpton Dr, Texarkana, Texas 75503**

**Stormwater Permit**

A **"STOP WORK"** order is being posted on this project effective **IMMEDIATELY**.

Whereas, Violations of Chapter 125 (Stormwater Management Ordinance) has been found at the above referenced site, it is hereby ordered in accordance with the above Code that all persons cease, desist from, and **STOP WORK** at once pertaining to all construction or grading alterations on the above premises, except that work which is necessary for correction of the violations listed below.

This violation is due to failure to comply with the City of Texarkana, Texas, Stormwater Ordinance. In order to release this order, the following violation/s must be addressed immediately.

**Nature of Violation (s)/ Corrective Actions Required:**

- 1. No Stormwater Application Permit documentation has been received.**
- 2. The City is requesting the following item in-order to process a valid Stormwater Permit;  
*\*\*Erosion Control Plan (ESCP)***

No additional work shall proceed until the City of Texarkana, Texas, Stormwater Management Division inspects and approves the repairs contained in the "Stop Work Order". Any activity other than work leading to compliance with this "Stop Work Order" will result in the issuance of a criminal penalty in an amount not to exceed **\$2,000/ per day for each violation, or any greater criminal penalty authorized by State Law and City Code Chapter 125-93**. Failure to comply with this "Stop Work Order" shall be deemed justification for cancellation of the Stormwater Permit. Under no circumstances shall verbal permission, given at any time by any person, be considered justification for any work to be performed or any deviation from approved plans to be made which violates any of these regulations.

Please send the needed documentation to the mailing address above, or you may email it to me at the address listed below. Once we have received all needed information, we shall release the "Stop Work Order". At which point your Stormwater Permit will be issued.

If you have any questions concerning this violation you can contact our office at 903-798-3948.

**STORMWATER MANAGEMENT DIVISION**  
**CORRECTIVE ORDER**

January 09, 2023

**Regulo Olvera Real Estate**  
**521 Redwater Road**  
**Ste #A**  
**Wake Village, Texas 75501**

**Project/ Site Address: 6108 Greenbriar Forest Circle, Texarkana, Texas**  
**Inspection Date: 01/09/2023**  
**Stormwater Permit #: 2022-SP-1**

This Correction Order serves as a warning concerning activities on the above-mentioned site.

Whereas Violation of Section 125 (Stormwater Management Ordinance) in the City of Texarkana, Texas Code of Ordinance have been found at the above referenced site, it is hereby advised in accordance with the above Code that all deficiencies listed below be corrected.

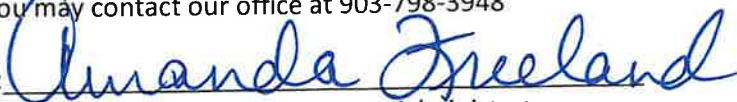

The violations noted below must be corrected immediately. Failure to comply with this warning is considered a Violation of the City of Texarkana, TX Stormwater Management Ordinance and will result in the issuance of a **Notice of Violation and/ or Stop Work Order**. Under no circumstances shall verbal permission, given at any time by any person, be considered justification for any work to be performed or any deviation from approved plans to be made which violates any of these regulations.

**Nature of Violation(s)/ Corrective Actions Required:**

- 1.) SWP3-General Provisions-Erosion Control Plan (ii)-B. d.) - **There are No BMPs in place. Reasonable measures shall be taken to contain silt. Silt is washing into roadway.**
  - 1-b.) **All discharge should be cleaned up, to resolve silt disbursement onto Roadway and nearby storm drain.**

Please see attached photographs as well.

Thank you, in advance, for your cooperation in this matter. If you have questions concerning this warning you may contact our office at 903-798-3948

The violations noted below must be corrected immediately. Failure to comply with this warning is considered a Violation of the City of Texarkana, TX Stormwater Management Ordinance and will result in the issuance of a **Notice of Violation, Stop Work Order, or Citation**. Under no circumstances shall verbal permission, given at any time by any person, be considered justification for any work to be performed or any deviation from approved plans to be made which violates any of these regulations.

**Nature of Violation(s)/ Corrective Actions Required:**

- 1.) SWP3-General Provisions-Erosion Control Plan (ii)-B. d.) - **There are No BMPs in place. Reasonable measures shall be taken to contain silt. Silt could wash into roadway.**
- 1-b.) **All discharge shall be cleaned up by property owner, to resolve any silt that has been disbursed onto Roadway and nearby storm drain.**

Please see attached photographs as well.

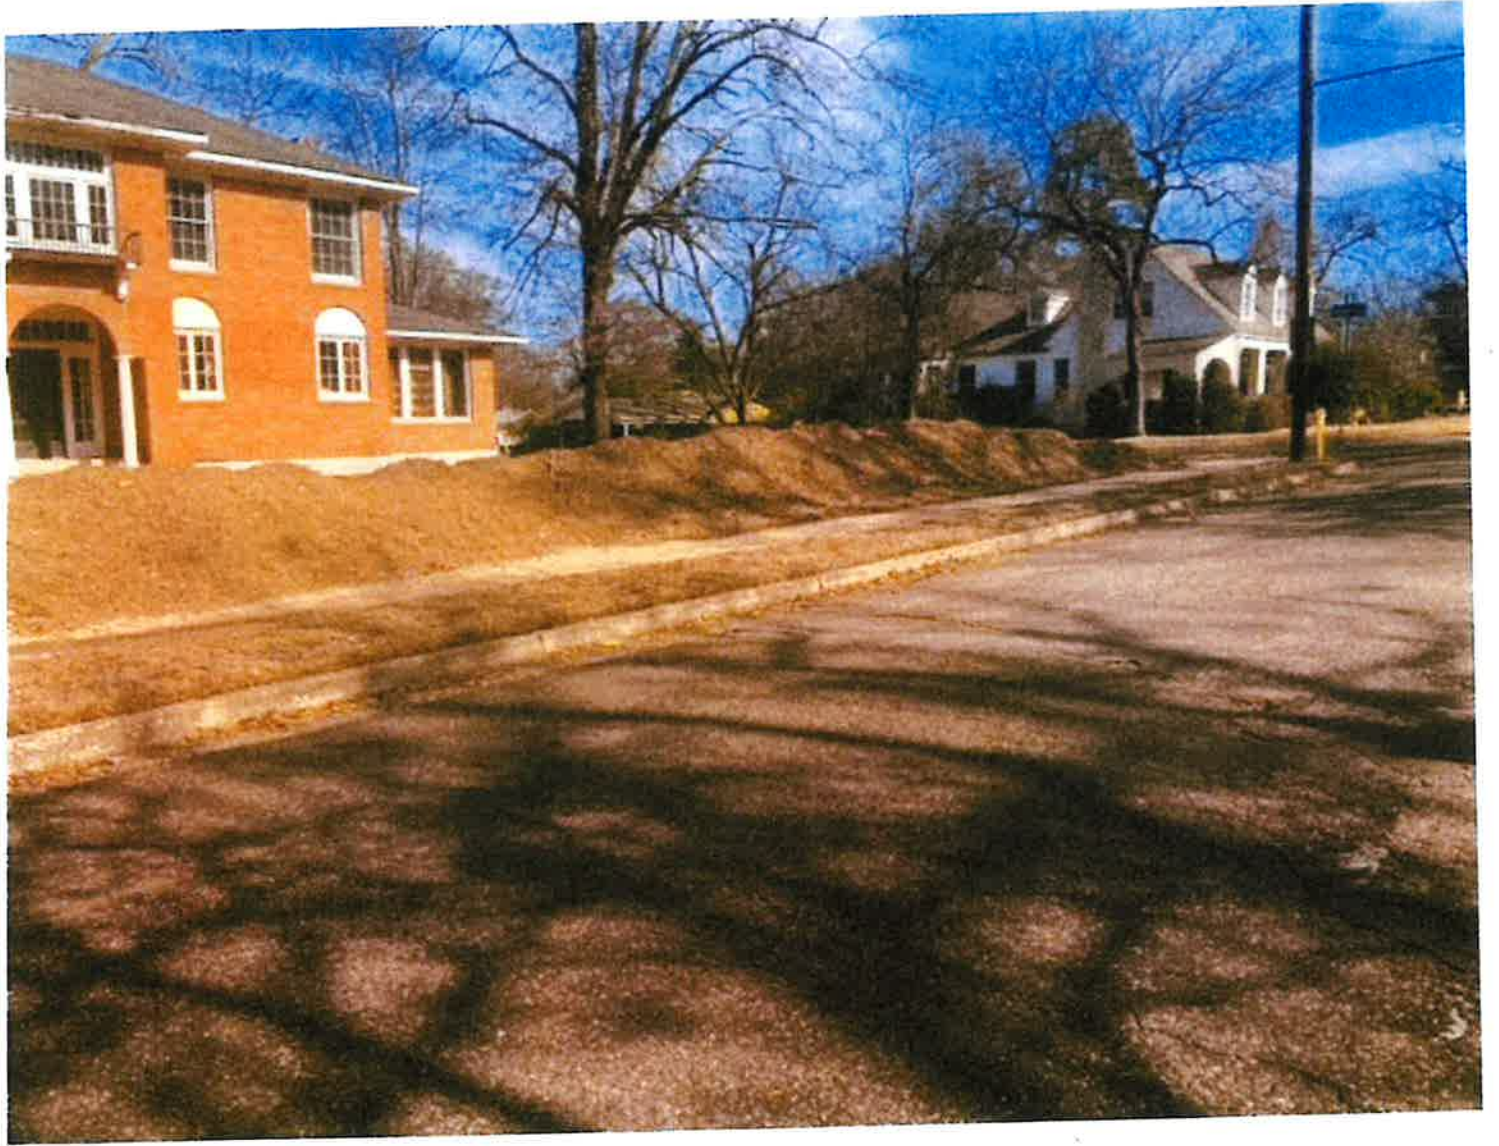

Thank you, in advance, for your cooperation in this matter. If you have questions concerning this warning you may contact our office at 903-798-3948

associated with industrial activity, to the extent practicable, shall be deemed compliance with the provisions of this section. These BMPs shall be part of a stormwater pollution prevention plan (SWP3) as necessary for compliance with requirements of the NPDES or TPDES permit.

- (3) The director may require an owner and/or operator of a regulated facility to modify its BMPs if, in the best professional judgment of the director, the BMPs do not provide effective protection from accidental discharge of prohibited materials or other wastes from entering into the municipal stormwater drainage system or waters of the United States.
- (4) The director may require any operator of a facility to modify the facility's stormwater pollution prevention plan if in the best professional judgment of the director, the SWP3 does not comply with the requirements of the facility's NPDES or TPDES permit or this chapter to discharge stormwater associated with industrial activity.
- (5) The deficiencies in a facilities' BMPs will be communicated in writing, and the director will provide the owner and/or operator a reasonable amount of time, not to exceed 60 days, to make the necessary changes in the BMPs. permit time requirements for controlling pollutants in runoff shall remain applicable.

(Code 1961, § 32A-13.1; Ord. No. 092-2012, § 1(exh. A), 7-23-2012)

\*Sec. 125-63. - Construction stormwater management.\*

- (a) *General provisions; construction related violations.* No person shall construct, enlarge, alter, repair or maintain any grading, excavation or fill, or cause the same to be done, contrary to or in violation of any terms of this chapter. Any person violating any of the provisions of this chapter shall be deemed guilty of a misdemeanor and each day during which any violation of any of the provisions of this chapter is committed, continued or permitted, shall constitute a separate offense. In addition to any other penalty authorized by this section, any person, partnership or corporation convicted of violating any of the provisions of this chapter shall be required to bear the expense of such restoration. Violations include, but are not limited to, the following:
  - (1) Construction not conducted in accord with the requirements of this chapter shall be a deemed a violation of this chapter;
  - (2) Construction not initiated or terminated within the time frame authorized by the director by notice, permit or license when such authorization is required by this chapter, shall be a violation of this chapter;
  - (3) It shall be a violation of this chapter to not comply with requirements for timely application for a stormwater permit and requirements for a stormwater pollution prevention plan and/or an erosion and sediment control plan;
  - (4) Conducting any land disturbing or construction activity without an approved erosion control plan for the location where the violation occurred;
  - (5) Failing to install erosion control devices or to maintain erosion control devices throughout the duration of land disturbing activities, in compliance with the approved erosion control plan for the location where the violation occurred;
  - (6) Failing to remove off-site sedimentation that is a direct result of land disturbing activities where such off-site sedimentation results from the failure to implement or maintain erosion control devices as specified in an approved erosion control plan for the location where the violation occurred;
  - (7) A person commits an offense if the person owns or operates a construction site or industrial facility that is discharging stormwater associated with a regulated construction or industrial activity without having submitted a copy of the notice of intent to do so to the city.

- (b) *Establishment of stormwater permit.* A stormwater permit is required to ensure conformance with the requirements of this chapter prior to any land disturbing activity, including but not limited to, clearing, dredging, grading, excavating, transporting, storing, stockpiling, mining, disposing and filling of soil, earthen materials or land.
- (c) *Regulatory permits.* It shall be the private property owner's, developer's or builder's responsibility to secure all regulatory permits associated with development drainage improvements and/or any land disturbing activities. These include, but are not limited to, the U.S. Corps of Engineer 404 permits, TCEQ permits and the U.S. Environmental Protection Agency discharge permits.
- (d) *Construction sites.*
  - (1) *Applicability/site limits.* This chapter shall apply to all areas of land within the city limits. The erosion control provisions of this chapter do not apply to land under active agricultural use. As soon as construction or modification to the lands under active agricultural use is proposed so that the use of land will change from agriculture to any other use, then the provisions of this chapter shall be applicable to the once exempted land. Subsection (g)(6) of this section explains this exemption in greater detail. A construction site is the location and all the areas wherein construction activity, which is all or part of a common development or project, are occurring, proposed to occur, or have occurred, irrespective of whether that construction is in compliance with this chapter, irrespective of whether that construction activity is ongoing or temporarily suspended for any purpose and irrespective of whether the director has granted authorization to undertake the construction activity. For purposes of this chapter, a construction site shall encompass:
    - a. All land and surface water areas where the construction activities of any type, including all areas of land surface disturbed by or as a consequence of the construction activities or other activities in support of the construction activities, are undertaken as part of a common plan of development or project;
    - b. All areas of land to be disturbed by construction of a common plan of development or project, irrespective of whether such construction is undertaken or planned to be undertaken in one phase or stage or different phases or stages and irrespective of whether such construction is undertaken or planned to be undertaken at different, separate or simultaneous times;
    - c. All areas of land where the land is to be disturbed by construction of a common plan of development or project, irrespective of whether undertaken at contiguous or separate locations within the general area encompassed by the common plan of development or project, provided such boundary lies on or is within the boundary of property collectively owned or leased by one or more parties undertaking any or all of the construction activities; and
    - d. All areas of ongoing, temporarily suspended, yet-to-be undertaken and completed construction encompassing the totality of the construction activities, irrespective of whether any or all the construction activities are within compliance with this chapter.
  - (2) *Redefining of construction site limits.* The director shall have the right to redefine, for purposes of compliance with this chapter, the limits of a construction site in the extent and amount necessary and sufficient in the judgment of the director to prevent the actual or potential discharge of pollutants from the construction site to the MS4 or waters of the U.S. to the maximum extent practicable, provided the limits so defined lies on or within the boundary of property collectively owned or leased by one or more operators undertaking any or all of the construction activities at the site.
  - (3) *Cessation of construction site.* A construction site shall, for the purposes of this chapter, cease to be a construction site only at such time that all requirements for closure of the construction site as specified by this chapter have been met.
- (e) *Operators and applicants.*

# Stormwater and the Construction Industry

## Protect Natural Features

- Minimize clearing
- Maximize the amount of exposed soil
- Identify and protect areas where existing vegetation, such as trees, will not be disturbed by construction activity
- Protect streams, stream banks, wild woodlands, wetlands, or other sensitive areas from any disturbance or construction activity by fencing or otherwise clearly marking these areas

## Construction Phasing

- Sequence construction activities so that the soil is not exposed for long periods of time
- Schedule or limit grading to small areas
- Install key sediment control practices before site grading begins
- Schedule site stabilization activities, such as landscaping, in or completed immediately after the land has been graded to its final contour

## Vegetative Buffers

- Protect and install vegetative buffers along watersheds, in slow and filter stormwater runoff
- Maintain buffers by mowing or replanting periodically to ensure their effectiveness

## Site Stabilization

- Vegetate, mulch, or otherwise stabilize all exposed areas as soon as land alterations have been completed

## Silt Fencing

- Inspect and maintain silt fences after each rainstorm
- Make sure the bottom of the silt fence is buried in the ground
- Securely attach the material to the stakes
- Don't place silt fences in the middle of a waterway or use them as a check dam
- Make sure stormwater is not flowing around the silt fence

# Maintain your BMPs!

[www.epa.gov/npdes/menuefbmps](http://www.epa.gov/npdes/menuefbmps)

## Construction Entrances

- Remove mud and dirt from the tires of construction vehicles before they enter a paved roadway
- Properly size entrance BMPs for all anticipated vehicles
- Make sure that the construction entrance does not become buried in silt

## Slopes

- Rough grade or terrace slopes
- Back up long slopes with sediment barriers, or under drains, or other stormwater conveyance devices

## Dirt Stockpiles

- Cover or seed all dirt stockpiles

## Storm Drain Inlet Protection

- Use rock or other appropriate material to cover the storm drain inlet to filter out trash and debris
- Make sure the rock size is appropriate (usually 1 to 2 inches in diameter)
- If you use fabric filters, maintain them regularly

### **Local schools help plant trees for **Arbor Day** giveaway**

For Immediate Release:

TEXARKANA, TX- The City of Texarkana, Texas in partnership with the Master gardeners of Bowie and Miller county, hosted a tree planting project on Wednesday, March 2, 2022. Students from Maud, Liberty-Eylau, Pleasant Grove and Texarkana, Arkansas ISDs participated in the planting of 600 trees into pots. These trees will be used as part of the stream restoration project as well as future Arbor Day tree give-away.

This project took place three days before the annual Arbor day tree give-away at Spring Lake Park, across from the splash pad.

“About 55 students all together came out and got this project done in less than 2 hours.” Vashil Fernandez, Interim Director for Planning and Community Development said. “We are so excited to be working with the school districts to engage and encourage their students to contribute to the development of their city.”

The Arbor Day tree give-away is this Saturday, March 5<sup>th</sup> at 9:00 a.m. at Spring Lake Park, across from the Rotary Splash Pad. The event will last until all trees are given away. Those interested in obtaining trees must enter the park from the Mall Drive entrance and will be asked to remain in their vehicle and a volunteer will bring the trees to the vehicle.

For more information, please contact Vashil Fernandez at 903-798-3904 or [vashil.fernandez@txkusa.org](mailto:vashil.fernandez@txkusa.org)

### **April 9<sup>th</sup> TAMUT Big Event and Don't Mess with Texas Trash Off 2022**

For Immediate Release:

TEXARKANA, TX- A huge cleanup effort is taking place in Texarkana on Saturday, April 9<sup>th</sup>. Not only will Texarkana participate in the Don't Mess with Texas Trash Off from 8:00 a.m.-12:00 p.m., but Texas A&M University Texarkana will host The Big Event, which includes a day of service where students, faculty, staff, alumni and families unite to extend a helping hand to the community. This is an opportunity for residents to help clean up their area roadways and beautify the community.

The kickoff for the Big Event will be held at 7:00 am on Saturday, the 9<sup>th</sup>, at the U.S. Post Office/Courthouse at 500 N. Stateline Ave., and the street around the building will be closed at that time for opening festivities.

As part of the cleanup effort, the City will host beautification projects at four sites across town. These include Beverly, Rosehill, New Town and the Texarkana Public Library. There will be a roll-off dumpster at each location and residents are invited to drop off bulk waste and trash (excluding electronics, paint, tires, batteries, and other hazardous waste)

Please see the location below for each site.

- Library parking lot in the back (**600 W 3rd St, Texarkana, TX 75501**)
- Rosehill (Milam and w 13th) (**1303 Milam St, Texarkana, TX 75501**)
- New Town, Bell Park (**3208 Lincoln Ave, Texarkana, TX 75503**)
- Beverly, at the community center. (**901 Lumpkin St, Texarkana, TX 75501**)

For more information, please contact the City's Planning and Community Development Department at 903-798-3904.

**Subject:** RE: Stormwater Information On Water Bills

Good afternoon, ladies.

Can we please get the below listed message placed on the next round of billing?

*“Residents are allowed to place 1 cubic yard of bulk waste at curbside with their waste and recycling carts on the same collection day each week. Those needing to remove an amount of bulk waste exceeding the 1 cubic yard allotment may make arrangements for the removal of such items by contacting Waste Management at (903) 794-4111 to schedule a pick-up and make payment arrangements. As well as Waste Management will be providing an additional option on the 1<sup>st</sup> Saturday of each month, residents can take their bulk items to the Waste Management Office located at 2708 W. 7<sup>th</sup> Street, Texarkana, Texas 75501, from 8am – 12pm.”*

Thank you,

CITY OF  
**TEXARKANA**  
TEXAS

## Adopt- A-Spot Program Agreement

Streets  Parks  Medians  Lots  Blocks  Trails  Alleys  Hydrants  
 Cemetery Plots  Waterways  Storm Water Drains  Landscaping Features

The following is a Letter of Agreement between the City of Texarkana, Texas, hereinafter called the "City", and

Greater Texarkana Young Professionals

Hereinafter called the "Sponsor", recognizing the need and the desirability of a beautiful, litter-free community; and are entering this Agreement to permit the Sponsor to provide volunteer services at least four (4) times per year at the specific site known as

Ferguson Park - 3000 Texas Blvd

By signatures below, the Sponsor, both jointly and severally, acknowledge the potentially dangerous nature of the work and agree to the following terms and conditions:

- The Sponsor shall be required to adopt for a minimum period of two years.
- The Sponsor shall volunteer at the location a **minimum of four times a year**. It is desired that one of these days coincide with the Citywide Cleanup campaign in the spring and fall of each year. Monthly volunteering is encouraged, when possible.

*Required:* Litter Cleanup

*Optional: (Place check by desired activities)*

Maintain Flower Bed/Landscaping

Mow Grass. If yes, how often:

Special Project:

as required by the city

- The Sponsor shall appoint or select a chairperson to serve as spokesperson for the Sponsor, who will be responsible for recording and reporting the volunteer hours worked and number of bags collected on cleanups to the City.
- The Sponsor and participants agree to abide by all laws, regulations, and guidelines relating to safety.
- The Sponsor shall be responsible for maintain a first-aid kit and adequate drinking water while volunteering on the adopted section.
- The Sponsor shall be responsible for prohibiting participants from either possessing or consuming alcoholic beverages while volunteering on the adopted section.
- The Sponsor shall ensure that individuals participating in a volunteer effort shall wear bright colored clothing or safety vests.
- If participants are 15 or younger, the Sponsor shall furnish adequate supervision by one or more adults.
- The Sponsor shall not subcontract or assign its duties or responsibilities to any other Sponsor organization, or enterprise without first consulting with the City of Texarkana, Texas.
- The Sponsor shall have the option of renewing the agreement subject to the approval of the City.
- The Sponsor shall report volunteer activities and hours on approved forms provided by the City of Texarkana. After each cleanup, these forms should be mailed to the Public Works Department at 919

Elm Street, Texarkana, Texas 75501. A copy may be emailed to [Amanda.Freeland@txkusa.org](mailto:Amanda.Freeland@txkusa.org) in lieu of mailing.

**The City agrees to accomplish the following:**

- Work with the Sponsor to determine the specific section to be adopted.
- Place a sign identifying the adopted section with the Sponsor's name or acronyms displayed. The Public Works Department must approve additional or customized signage.
- Remove litter from the adopted section under unusual circumstances, i.e. remove large, heavy, or hazardous items.
- Continue to provide current level of maintenance.

If, in the sole judgment of the City, it is found that the adopting Sponsor is not meeting the terms and conditions of this agreement, upon 30 days' notice, the City may terminate the adopting agreement and remove the signs. This agreement may be modified in scope or altered in any other manner at the sole discretion of the City. The City reserves the right to modify or cancel the Adoption Program at any time and for any reason, at the sole discretion of the City. It is also agreed that the City does not assume liability for the actions of the Sponsor in performing maintenance on City property. This agreement may be amended at any time by mutual agreement of both the City and the Sponsor.

**This agreement shall commence on the date listed by the Sponsor below and shall endure until such time as terminated by either the Sponsor or the City.**

**CITY OF TEXARKANA**  
invites applications for the position of:

## Construction Inspector

**SALARY:** \$20.52 Hourly  
\$42,680.63 Annually

**OPENING DATE:** 01/18/23

**CLOSING DATE:** Continuous

### DESCRIPTION:

#### GENERAL PURPOSE

Assumes responsibility of all inspections for Public Works related construction and maintenance projects. Handles stormwater inspections for City and private development projects, inspects driveways, and private development subdivisions. Assists with field work related to the City's MS4 Permit to ensure the City stays in compliance. May also assist Public Works Department with traffic control issues and Inspections Department with code enforcement issues.

#### SUPERVISION RECEIVED

Reports to the Public Works Director and/or City Engineer.

#### SUPERVISION EXERCISED

None.

### EXAMPLES OF ESSENTIAL DUTIES:

Presence in the workplace on a regular basis is required to accomplish the essential functions, regular attendance MUST be maintained.

Conducts the inspection of and maintains a daily work log on all Public Works construction and maintenance projects and provides data necessary for the preparation of monthly pay estimates or invoices.

Conducts stormwater inspections on all private development construction projects. Works closely with contractors to ensure they are maintaining compliance with City's Stormwater Management Ordinance. Issues corrective actions notice of violations, and/or stop work orders as needed.

Inspects all construction activities for new streets within the City.

Performs/assists with all field work related to the City's MS4 permit.

Assists other divisions within the Public Works Department with traffic control issues, and other day to day issues such as debris/storm cleanup, mowing, and other duties as needed. Inspects driveways for residential and commercial developments.

Assists with preliminary specifications, and cost estimates for engineering projects.

Assists with GIS field mapping such as marking drainage facilities and roadway conditions

Assists with the inspection and follow up of code enforcement cases throughout the City.

Performs other duties as assigned.

### TYPICAL QUALIFICATIONS:

#### DESIRED MINIMUM QUALIFICATIONS

1. High school diploma or GED equivalent
2. Three (3) to five (5) years related experience depending on education
3. Must possess a Certified Stormwater Inspector certificate or have the ability to obtain one within one (1) year of hire date

#### NECESSARY KNOWLEDGE, SKILLS, AND ABILITIES

1. Knowledge of survey practices, procedures, and proper/accurate equipment use
2. Knowledge of construction specifications, plans, construction of public utilities, and some mathematics (basic arithmetic, geometry, algebra, etc.)
3. Knowledge of the standards and specifications of concrete and asphalt paving (per Texas Department of Transportation standards and specifications)
4. Ability to work from oral and written instructions

#### SPECIAL REQUIREMENTS

Must possess a valid driver's license

#### TOOLS AND EQUIPMENT USED

Surveying tools, hand held GPS, computer, calculator, and other miscellaneous tools and equipment.

### SUPPLEMENTAL INFORMATION:

#### PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential job functions. Work is performed indoors and outdoors. Hand-eye coordination is necessary to operate various pieces of equipment.

While performing the duties of this job, the employee is required to use hands to finger, handle, feel, or operate objects, tools, or controls; and reach with hands and arms. The employee is

occasionally required to climb or balance, stoop, kneel, crouch, crawl, talk, and hear.

The employee is frequently required to lift and/or move up to fifty (50) pounds. Specific vision abilities required by this job include close vision, color vision, distance vision, peripheral vision, depth perception, and the ability to adjust focus.

#### WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential function of this job.

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. While performing the duties of this job, the employee occasionally works in outside weather conditions and is occasionally exposed to wet and/or humid conditions. The noise level in the work environment is moderately quiet in the office and moderately loud in the field.

The duties listed above are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to the position.

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change.
